CRUZANDO LÍMITES

México ante los desafíos de sus yacimientos transfronterizos

Chapter 4. When the reasoning stop up the straws. The international legal framework to denounce the unilateral abuses and learn from joined experiences on shared hydrocarbons

Introduction

1. The Law of the Sea, the continental shelf delimitation and sovereignty, exclusivity and inherence of the coastal State on its natural resources
2. The absence of international cooperation regarding the Law of the Sea: the international wrongful act of the unilateral use of transboundary deposits
3. The cooperation on the Law of the Sea: the architecture of international treaties regarding the joined development of transboundary deposits.

Conclusions
